

AGRICULTURAL MACHINERY AND EQUIPMENT

Alvris-01

Alvetris Agricultural Machinery

CAPACITY

3500**PRODUCT DESCRIPTION**

We know what the land means to us.

The land represents hard work, patience and the future.

Twenty-five years ago, we set out with this conviction: to produce machinery that would make our farmers' work easier and never let them down, even under the most challenging conditions.

Today, every Alvetris machine rolling off the production line at our factory in Turkey is working with the same conviction in over 75 countries.

Because we don't just sell machinery. We enhance the power of the land.
